DETAILED ACTION

This application is in condition for allowance except for the following formal matters:

Claim Objections

Claim 31 is objected to because of the following informalities:

Claim 31 should be depended on claim 29 because claim 31 fails to further limit claim 1. The limitation of claim 31 is disclosed in claim 1, line 5.

Allowable Subject Matter

Claims 1-6,29-30 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: Prior arts of record do not disclose a laser capture microdissection method. The method comprises: positioning a sample on a translation stage of a laser capture microdissection instrument and within an optical axis of said laser capture microdissection instrument, said translation stage including a vacuum chuck having a beam path hole through which said optical axis extends, placing a laser capture microdissection transfer film in juxtaposition with said sample with a pressure sufficient to allow laser capture microdissection transfer of a portion of said sample to said laser capture microdissection transfer film, without forcing nonspecific transfer of a remainder of said sample to said laser capture microdissection film which structurally arranged and functionally operated as claimed in claims 1,29.
